

Santiago Nicolás Weinstein Fernández

INDUSTRIAL/SOFTWARE ENGINEER

ABOUT ME

I am an Industrial Engineer from Universidad del Desarrollo, skilled in Excel, Python, and SQL, with expertise in logistics and operations management. Fluent in English, I have recently expanded my capabilities into web development, learning JavaScript, Node.js, SQL, MongoDB, and React through UC Berkeley's Coding Bootcamp. Combining engineering insights with robust programming skills, I tackle complex challenges innovatively. Experienced in agile methodologies and collaborative project management, I bring discipline and dedication from my athletic pursuits to all professional projects.
